Honoring. Remembering. Loving.

DAKOTA GRANITE

DAKOTA GRANITE Mausoleums

Dignity. Security. Quality.

Dakota Granite mausoleums are designed with a focus on craftsmanship and aesthetics. Beauty, security and versatility are interwoven in the creation of above-ground memorials built to accommodate individuals, families or even community cremains.

As a builder of fine memorials for over 80 years Dakota Granite continues our tradition of carefully inspecting our quality at every point of creation. Each mausoleum is pre-assembled by our third and fourth generation stone craftsmen who build each unit as if it were their own family memorial.

Pre-assembly also assures that each mausoleum, when shipped, will meet the tightest industry specifications. Since there is no concrete used in the construction of our buildings, we offer a full perpetual warranty on every domestic color that we use in the construction of a family memorial.

While we have a palette of beautiful designs, we are proud to work with our authorized memorialists throughout the country to help families construct custom buildings designed to suit personal needs and tastes.

Allow us to help your family's rich legacy live on through a Dakota Granite family mausoleum.
